

Business Model Canvas (BMC) for Smart Damage/Leakage Detection System

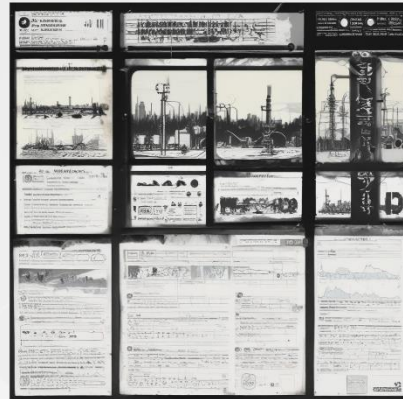

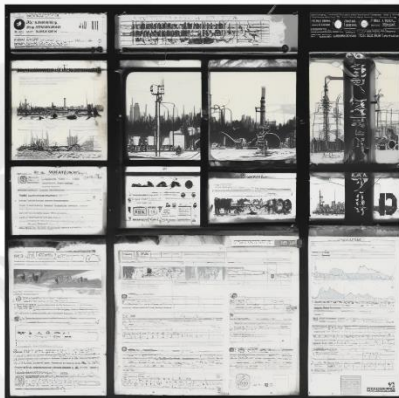

Real-time Alerts and Detailed Display

Receive real-time alerts and view detailed information about issues, including the time and location of the leakage.

[View Dashboard](#)

A smart damage/leakage detection system for oil and gas pipelines, integrated with a mobile SMS app. The interface should provide real-time alerts, display detailed information about issues, including time and location of the leakage, and offer a dashboard for monitoring pipeline status.
